LETTER OF RECOMMENDATION

October 8, 2026

To Whom It May Concern,

I am writing to recommend Aditya Nair for opportunities in user experience design and related study. Aditya worked with Quitebox Tech Labs Private Limited as a UI/UX Design Intern from February to April 2026. I have also collaborated with him during several game jams.

During his internship, Aditya contributed to user flows, wireframes, and high-fidelity prototypes for mobile and web applications. His work included consideration of user needs, usability, and the overall product experience. He also assisted with the design system and UI component library and worked with the development team to support alignment between the designs and their implementation.

In our game jam collaborations, Aditya contributed to game design, concept development, and user interface design within limited timeframes. He communicated his ideas, worked with other team members, and adapted his contributions as project requirements changed.

In my experience, Aditya was dependable, organised, and receptive to feedback. He showed an interest in how people interact with products and a willingness to develop his design skills.

Based on our work together, I consider Aditya a suitable candidate for further study or an early-career opportunity in user experience design. I recommend him for consideration and would be happy to provide further information about his internship and contributions.

Sincerely,

Aanandkumar Yadav
Director
Quitebox Tech Labs Private Limited
